

## Process/Continuous Improvements Engineer

A family-owned and operated company since 1896, **Whittaker's Chocolate** is an iconic name in New Zealand. Voted New Zealand's 'Most Trusted Brand' for the past 8 years running, Whittaker's is a Kiwi success story and a brand all New Zealander's trust and love. With the 4th generation of the family now involved in the business, Whittaker's continues its family tradition and values, and emphasis on producing quality products. There is now an opportunity to be part of this success story in a **Process Engineering / Continuous Improvements Engineering** role.

### The job

Our new Process/CI Engineer will be involved in the optimisation of new and existing manufacturing processes throughout the plant, improving manufacturing efficiency through analysing such things as workflow analysis, space requirement and equipment layout, Establish and manage a Process Control Plan.

You will utilise DFMEA and PFMEA techniques to support your work and ensure their documentation for the HACCP and control plan.

As an experience Process/CI Engineer, you know what the job will entail, so let's talk and compare notes!

### The person

As our new Process/CI Engineer, you will:

- Preferably be tertiary qualified in a suitable discipline
- Have at least 5 years' experience in a high-speed manufacturing facility
- Have experience in working in a food manufacturing environment
- Be used to working to a HACCP plan
- Be experienced in working with DOE, DFMEA and PFMEA methodologies, Control Plans and in structured problem solving such as 8D
- Have proven experience in implementing lean manufacturing methodologies such as 5S, Kaizen, Kaban

You will be a relationship builder and an influencer; you'll be able to get people at all levels on the same page. You will find experience in using AutoCAD to be a benefit.

This is a change to be part of a New Zealand success story and a chance to be part of their growth, so if you are after a challenge and a chance to grow, this is the job for you!
