This is a unique opportunity to join Food Technical as a food technology consultant, playing a pivotal role in leading food product development project from concept to market launch. As well as supporting a range on clients on technical challenges. This is a dynamic role with lots of interesting challenges, for an individual who thrives in a busy environment. The successful candidate will work closely with the founding food technology consultant for 3 months and then will receive 12 months of advisory support.

**Responsibilities:**

- Lead and manage food product development projects from inception to market launch.
- Utilise food science and technologies to develop and produce new products.
- Source commercial ingredients.
- Work collaboratively with co-manufacturers.
- Manage client relationships.
- Set-up food safety plans and shelf-life assessments.
- Develop recipe documentation and reviews labels.

**Requirements:**

- Bachelor's degree in food science/technology.
- 10+ years experience in NPD roles.
- Broad food category experience.
- Strong project management skills.

**Benefits:**

- Salary based on profit share.
- Dynamic and exciting working environment.
- Opportunity to work for yourself and grow the business.
- Support from founding food technology consultant.
- Runway of interesting projects.

**How to apply:**

Interested candidate should submit their CV to [samuel@foodtechnical.co.nz](mailto:samuel@foodtechnical.co.nz) by the 14<sup>th</sup> March 2024.
