The Richard and Mary Earle Travel Fellowship is an annual grant of up to $15,000 that helps fund overseas travel for young Engineers, Food Technologists and Food Scientists, creating an opportunity for them to increase their professional knowledge and innovative skills. It is envisaged that the skills gained, and the contacts made, through visiting overseas research and development institutes, and attending international conferences will enable successful candidates to improve technology in New Zealand.

Applicants for the Earle Travel Fellowship will be engaged in the study of or gaining practical experience relevant to either:

- Product development and innovation management
- Process development in bio-processing or food processing

Applicants must be:

a) New Zealand citizens or permanent residents with at least three years proven residence in New Zealand immediately preceding the year of selection.

b) Members of a professional organisation recognised by the Board [Engineering New Zealand, New Zealand Institute of Food Science and Technology, Institution of Chemical Engineers in New Zealand, or Product Development & Management Association],

c) Aged less than 40 years but with a preference given to candidates under 35 years.

d) Employed in one of New Zealand’s technological industries (products or services), or an associated research organisation.
